

Rich vs Poor Picture

This cool picture clearly shows the gulf in wealth in some parts of the world where the rich live right on the doorsteps overlooking the poor.

Rich father on the balcony telling his son

"If you don't work hard you will end up in that favela".

Poor dad looking up telling his son

"If you work hard and are lucky one day you will be on that balcony".

Liberal dad looking at this picture telling his son:

"We have to redistribute the wealth, mix all that together, so there will be peace forever everywhere in the world."
